INTRODUCTION COMPANY PROFILE

We have pleasure to introduce you **LOKNATH** Overhead Conveyor Systems of **Mono-O-Veyor (3 wheel type), Mono-O-Super (4 wheel type) and X 348 (2 wheel type) I- Beam Conveyors**, at a low cost, an easy, most economical, exceptionally efficient conveying system that can be capable to solve all type of material handling problems for years together and this is first time in Asia that we introduce modern technology for Overhead Conveying system. This system has been applied in different industries, some of them are Tea processing, Leather processing, Automobiles, Cement & Chemical etc. This installation proved 50% cost saver, maintenance and service life, also a valuable floor space saver help to reduce workmen fatigue and increase labor productivity that ensure quick payback and low down time.

We are one of the Premier Manufacturer and Exporters of all type of Conveyors like Overhead Conveyors, Conveyor Belts, Slat Conveyors, Roller Conveyors and Floor Conveyors. Since our inception, the Company has been moving at a great speed and today we are the undisputed leader in the realm of our activity. The secret of our success lies in our innovative products and our constant striving to enhance the quality of our products. We are proud to have one of the best infrastructural facilities supported by our team of dedicated and committed professionals. We are open to all changes and innovations that have been taking or will take place in the sphere of our activity.

This has been proved as one of the Most Competitive Technology and at par with Latest Technological Structures from other Modern Manufacturing Agencies.

The persons who were involved in designing & manufacturing of different types of Overhead Conveyor systems in most of the reputed company in India are now with us.

SALIENT FEATURES

1. Gyroscopic couple is controlled by the guide wheel & load wheel of same diameter which control the vibration when moves through different vertical & horizontal bends. It is absolutely a proven system to absorb any type of vibration or shock.
 2. The trolleys, link axle, which are used in the system, are mainly made of alloy steel of EN & EDD qualities of C.R.C.A. sheets.
 3. The wheel are made specially high carbon, high manganese steel balls which give trouble free life long service of wheel without having any further maintenance while in function.
 4. Drive
The overhead conveyor system moves by caterpillar or sprocket type drive unit with e a 1 HP or 2 HP TEFC Motor Transmits the motion to a speed gear box through 'V' Belts. The output shaft of the speed Gearbox fitted with a shear pin sprocket finally transmits motion to dog-chains the directly engage two sets of trolleys at a time which permit a relative motion between engaged trolleys distributing Drive power equally and automatically to monorail continuous movement of the system.
 5. Conveyor Chain
Mono-O-Veyor & Mono-O-Super Bi-planner type Three wheel, Five wheel & Four wheel chain & trolleys with 15", 12", 10", 9" & 6" pitch. Working tension of the chain is 350kgs & 520 kgs., and the breaking load would be 3500kgs - 5200 kgs.
 6. We have dedicated service engineers to take care of any kind of service oriented job as well as revamping of existing installations of overhead conveyor and any other related equipment.
 7. Loknath manufactured by Mono-O-Veyor (3 wheel Type) & Mono-O-Super (4 wheel Type) capable of handling loads per Hook 40 to 60 kgs, & 110 kgs, respectively. And we imported heavy-duty monorail type of X- 348 capable of 90 kgs., X- 458 capable of 180 kgs. , X- 678 capable of 500 kgs. Each trolley.
 8. And more details with technical know how as per your conveyor enquiry so please logon our website:- www.loknathengineering.co.in, www.loknathengineering.com or www.conveyorsystems.in ,for your details pacific enquiry Click our product ranges, where you will find the type of various Overhead/Floor Conveyors systems manufactured by us. We suggest you to provide us information in connection with your requirement,
-

We are pleased to introduce LOKNATH ENGINEERING and LOKNATH NEO SYSTEMS PRIVATE LIMITED as a Non Stop Engineering Organization, ready to solve all type of material handling solutions viz.

- Belt Conveyors Systems
- Slat Conveyors Systems
- Vibrating Screens
- Hammer Mill
- Jaw Crusher
- Chain / Drag Conveyor
- Bucket Elevator
- Roller Conveyor
- Overhead Conveyors (all types)
- Telescope Conveyors
- Impact or Apron Feeder
- Stacker Conveyor
- Conveyor Galleries
- Conveyor Structures
- Feed Hopper

We also undertake the following work on EPC basis:-

- Structural and Mechanical Fabrication. Erection Work, Site Fabrication and Erection. Factory Shed / Go Down / Railway Platform Shed / O.P Tower / Pipe Line Bridge.
 - Crane Girder / Pre-Fab. Structure.
 - Fabricated ERW Pipe / Pipe Line / Manifold Pipe Line
 - Overhead Water Tank with M.S. Structure / D.M. Water Tank /Horizontal And Vertical / Condenser Storage Tank / Oil Storage Tank through Hydraulic Jacking Equipment System.
 - Sand Blasting, Mechanical Fabrication and Erection Work.
 - Plot Structure for Aluminum Plant / Air Slide / Silo Top Equipments, In Side Equipment Erection.
 - Rubber Belt Vulcanizing.

WHAT WE MANUFACTURE

- 1) MINERAL PROCESS MACHINES/PLANTS
Apron Feeder, Vibrating Feeder, Disc Feeder, Reciprocating Plate Feeder, Screw Feeder, Conveyors, Elevators, Jaw Crusher (Single & Double Toggle), Jaw Granulator, 2 – Roll Crusher, 4 – Roll Crusher, Rock Sizes (Impact Breaker), Swing Hammer Crusher, Swing Hammer Pulverize, Storage Bins, Dust Collector, Rotary Air Lock Valve, Bag Filters, Rotary Screen, Vibrating Screen, Combined Grinding Plants, 2–Rotor Swing Hammer/Crusher Mill, Vibrating Fine Grinding Mill.
 - 2) REFRACTORY/STONEWARE PIPE MACHINES/PLANTS
Conveyor, Jaw Crusher, Jaw Granulator, Swing Hammer Mill, Bucket Elevator, Vibratory Screen, Rotary Screen, Screw Feeders,
 - 3) COAL PREPARATION MACHINES/PLANTS
Apron Feeder, Mechanical Vibrating Feeder, Reciprocating Plate Feeder, Single Roll Coal Crusher, Impact Coal Buster, Conveyors, Swing Hammer Coal Crusher, Rotary Ring Coal Pulverize, 2 – Roll Coal Crusher, 4 – Roll Coal Crusher, Elevators Storage Bins, Rotary Airlock Feeder, Vibrating Screens, Open Bottom Coal Crusher.
 - 4) SPECIAL SMOKELESS FUEL PLANT OF 100 TPD CAPACITY
Inclined Belt Conveyor, Single Roll Crusher, Vibrating Screen, Apron Conveyor, Slide Gate, Piping Work, Electrical Work.
 - 5) CERAMIC MACHINES/PLANTS
Jaw Crusher, Jaw Granulator, 2 – Roll Crusher, 4 – Roll Crusher, Combined Grinding Plant, Conveyor, Edge Runner Mill, Swing Hammer Mill, Pan Mill Bucket Elevator, Storage Bin, e), Vibrating Screen, Electro Magnetic Separator,
 - 6) FERTILIZER MIXING AND GRANULATION PLANTS
Belt Conveyors, Vibrating Screens, Swing Hammer Mills, Bucket Elevators, Storage Bins, Paddle Mixer, Rotary Drier, Rotary Cooler, Rotary granulators, Chain Mill, Cage Mill, Swing Hammer Pulverize, 2 – Rotor Swing Hammer Mill,
 - 7) FOUNDRY SAND PREPARATION MACHINES/PLANTS
Crusher, Vibrating Sieve, Belt Conveyor, Slat Conveyor, Hinged Belt Conveyor, Circular Conveyor, Roller Conveyor, Core Sand Mixer.
 - 9) OUR RANGE
Mineral Crushing, Grinding, Screening and Conveying Plants, Ceramic and Refractory Machines/Plants, Coal Preparation and Handling Plants, Metal Processing Plants, Fertilizer Process Plants, Sand Preparation Plants, Poultry and Cattle-Feed Plants, Refuge and Industrial Waste Preparation Plants, Sponge Iron Plants etc.
